ARTICLE V. USE REGULATIONS

DIVISION 1. GENERALLY

Sec. 21-105. Purpose.

The purpose of this article is to establish standards and conditions, and to provide for fees, relating to the use of sanitary sewerage facilities of the city. It is further the purpose of this article to establish uniform requirements for discharges into the wastewater collection and treatment system used jointly with other public entities as a party to the Joint Exercise of Powers Agreement establishing and providing for the Joint Powers Authority for the Strategic Consolidation Sewerage Plan, a public entity, and any successor thereto. It is further the purpose of this article to enable the city to comply with and meet applicable laws, regulations, standards and conditions established by federal and state law, or by agencies thereof in implementation of such law. The council of the city hereby finds and declares that the health, safety and welfare of the people of the city require the enactment of the provisions of this article.

DIVISION 2. REPORTS, PERMITS AND ADMINISTRATION

Sec. 21-113. Discharge reports.

Upon a determination by the director that such information is necessary or appropriate for him reasonably to carry out the provisions of this article, he may require that any person discharging, causing to be discharged, permitting to be discharged, or proposing to discharge wastewater into the sewerage facilities shall file a periodic discharge report, the cost of which shall be borne by such person. Such report may include, but shall not necessarily be limited, the information relating to the nature of manufacturing, fabricating, or other processes, fresh or non-wastewater volumes, wastewater volumes, rates of flow, mass emission rates, production quantities, hours of operation, number and classification of employees, or other information relating to the generation of waste, including wastewater constituents and characteristics of the pertinent wastewater discharge. The director may also require that such reports include the chemical constituents and quantity of liquid or gaseous materials stored on the premises relating to such discharge, even though such materials are not normally discharged into, or become a part of, the wastewater in the sewerage facilities. Such reports shall be in addition to self-monitoring reports, information furnished in connection with wastewater discharge permits, or other permits authorized under this article. The reports authorized and required under this section shall be filed with the director periodically and/or at such other times as the director may reasonably require.
